- Portuguese | Elementary

SUMMARY

I'm a Data/Software Engineer with +4 years of experience in the Information Technology field, holding a degree in Computer Systems Engineering. I'm passionate about continuous growth both personal and professional, and bring a versatile technical skill set that allows me to quickly adapt to new challenges, tools, and development environments. My experience spans the full data lifecycle from designing scalable ETL pipelines and optimizing large-scale SQL queries, to building BI dashboards, automating business processes, and developing full-stack web applications. I consider myself an adaptive resource: I can learn languages or technologies according to business requirements, thrive in collaborative teams, and enjoy solving real-world problems through technology.

EXPERIENCE

BI ENGINEER

NTT DATA. Costa Rica, Heredia | Oct 2025 - Present

- Developed and maintained interactive Power BI dashboards and reports to support business decision-making and KPI tracking.
- Built and deployed Power Apps solutions to digitize and streamline manual business processes.
- Designed automated workflows using Power Automate to reduce manual effort and improve operational efficiency.
- Administered and maintained SharePoint sites and team collaboration environments.
- Translated business requirements into scalable analytical solutions and data models.

DATA ENGINEER

NTT DATA. Costa Rica, Heredia | Nov 2023 - Oct 2025

- Designed, developed, and maintained scalable data pipelines and ETL processes to ensure reliable data flow accross systems.
- Developed, optimized and maintained complex SQL queries for data extraction, transformation, and reporting needs.
- Performed query debbuging and fixes to resolve performance issues, errors, and data inconsistencies.
- Worked with Oozie jobs to schedule, monitor and manage complex data workflows in Hadoop ecosystems.
- Integrated data from multiple sources into centralized repositories and data warehouses.
- Developed and maintained scripts to automate data processes, workflows, and tasks.
- Ensured data quality, consistency, and reliability through validation, monitoring and automation.
- Implemented the best practices for data storage, retrieval and performance optimization.
- Documented data pipelines, architecture, and operational procedures to ensure maintainability.
- Temporarily assumed DevOps responsibilities, implementing CI/CD pipelines.
- Participated in the collection, analysis and remediation of CVE's for multiple microservices.

SOFTWARE DEVELOPMENT SENIOR ASSOCIATE

NTT DATA. Costa Rica, Heredia | Mar 2022 - Nov 2023

- Developed and maintained full-stack web applications using modern technologies such as React.js, JavaScript, and MySQL.
- Wrote clean, efficient, and well-documented code following the best practices and coding standards.
- Created responsive user interfaces with HTML5, CSS3, and modern JS frameworks.
- Handled database management and query optimization to enhance application performance.
- Participated in all phases of the software development lifecycle, including requirement analysis, design, coding, testing and deployment.
- Performed debbuging, troubleshooting, and performance optimization to ensure stability and efficiency.
- Implemented and maintained automated testing frameworks to improve software reliability.
- Supported the integration and creation of API's.
- Collaborated with cross-functional teams to deliver scalable software solutions.

SOFTWARE DEVELOPER INTERNSHIP

NTT DATA. Costa Rica, Heredia | Oct 2021 - Mar 2022

- Completed a hands-on training program focused on Python, React.js, and JavaScript.
- Developed basic front-end components and practiced scripting and API integration.
- Built foundational skills in software development and web technologies.
- Received a certificate of completion and recognition for active participation.

EDUCATION

COMPUTER SYSTEMS ENGINEERING

Universidad Fidélitas. Costa Rica, Heredia | 2022 - Mar 2026

INTERMEDIATE TECHNICIAN IN NETWORKING

CTP CIT. Costa Rica, Heredia, Belen | Jan 2019 - Dec 2021

CERTIFICATIONS & COURSES

- **Programming Languages:** Python, C#, Java, JavaScript, R
- **Databases:** SQL, MySQL, SQL Server, OracleDB, NoSQL
- **Markup and Styling:** HTML5, CSS3
- **Frameworks and Libraries:** React.js, .NET, Pandas, Numpy, Matplotlib
- **Tools:** Git/GitHub, Tableau, Postman, Swagger, Hadoop, Docker, Datadog, PowerBI, Power Apps, Power Automate.
- **Methodologies:** Agile, Scrum
